Approximately 71% of these claims were paid in the Agency's Insurance Branch.

Approved For Release 2003/05/27 : CIA-RDP86-00964R000100030022-0

#### HIGHLIGHTS

The following Benefit Changes in the Association Benefit Plan were submitted to the Civil Service Commission for the 1976 contract year:

1. Increase the basic benefit for doctors' charges for maternity from \$250 to in full up to the reasonable and customary charge for normal delivery.
2. Increase the basic benefit for anesthetists' charges for maternity from a maximum of \$60 to in full.
3. Add coverage under major medical benefits for the services of a Christian Science practitioner if the practitioner's services are elected instead of the services of a doctor.
4. Add coverage under major medical benefits for two external prostheses per mastectomy and two bras per calendar year designed exclusively for use with an external prosthesis following mastectomy.

The above changes were approved by the Commission on September 11, 1975. Because of uncertainty as to what the relationship of the FEHB program to Medicare would be on January 1, 1976, the Commission announced on October 20th two sets of premium rates and extended the Open Season until December 31, 1975. Anticipating Congressional action on this matter, the Commission announced 1976 rates on November 17, 1975. At the 11th hour Congress acted on this matter and Agency employees were officially notified of the final 1976 rates on January 13, 1976. [REDACTED]
